TIMELINE

Àltima was founded through the merger of three family businesses with more than 300 years of experience in the funeral services sector.

ÀLTIMA

IS THE LEADING CATALAN FUNERAL HOME, CREMATORIUM AND CEMETERY MANAGEMENT GROUP

THE VFV GROUP

A parent company formed by the three partner families, currently providing funeral services in Ibiza, where it has a funeral home with crematorium in Santa Eulària des Riu. It operates under the Aurens brand.

ELYSIUS EUROPA, S.L.

Parent company in Sant Boi de Llobregat providing central services to the rest of the companies.

ÀLTIMA SERVEIS FUNERARIS, S.L.

This covers Barcelona, L'Hospitalet de Llobregat, El Baix Llobregat, L'Alt Penedès, El Baix Penedès, El Bages, El Garraf and L'Alt Camp. It serves a total of 83 towns and cities.

L'HOSPITALET RONDA SERVEIS FUNERARIS, S.L.

This includes the Àltima L'Hospitalet Ronda Funeral Home.

S. F. INTEGRALS DE GIRONA, S.L.

This operates in the regions of L'Alt Empordà, El Ripollès and El Gironès.

SERVEIS FUNERARIS MALLORCA, S.L.

It serves the entire island of Mallorca.

ALTREGARA, S.L.

A company owned by Àltima i Truyols Serveis Funeraris S.A., with the funeral home in Terrassa.

FUNERÀRIA BONET, S.L.

This provides services in Menorca.

GESTIÓ INTEGRAL DE CEMENTIRIS DE NUMBER, S.L.

This provides comprehensive cemetery management services in the regions of El Baix Llobregat, El Garraf, El Gironès and El Vallès Occidental. It also provides maintenance and cleaning services in more than 220 municipalities.

FUNERÀRIA DE VILANOVA, S.A.

This provides services to Vilanova i la Geltrú, Olivella and Sant Pere de Ribes.

FUNERÀRIA JUANALS S.A.

A funeral company operating out of Sant Feliu de Guíxols and providing services throughout the El Baix Empordà region.

SERVEIS FUNERARIS D'INCA, S.L.

From its headquarters, it provides services throughout the island of Mallorca.

AFFILIATED COMPANIES

TANATORI LITORAL, with a funeral home and crematorium in Sant Adrià de Besòs.

CEMENTIRIS METROPOLITANS, which has a cemetery and crematorium in Mataró.

FUNERÀRIA SANTA COLOMA, in which Àltima is a shareholder and is in charge of management.

Àltima's mission

Is to provide funeral and cemetery services that meet the needs of families, insurance companies, municipalities, official bodies, hospitals and care homes, free of social, racial, religious or any other form of discrimination.

CORE VALUES AND ATTITUDES AT ÀLTIMA

CORE VALUES AMONG OUR STAFF

- › Doing things well
- › Honesty
- › Discretion
- › Ethics
- › Respect
- › Involvement
- › Integrity

FOUNDATIONAL ATTITUDES IN ÀLTIMA

- › Finding solutions to problems
- › Commitment to service
- › Positive attitude
- › Humility
- › Desire to learn
- › Respect
- › Commitment
- › Work ethic

VALUES THAT MAKE OUR COMPANY WORK

- › Excellence in service
- › Responsibility and commitment to our clients and suppliers
- › Teamwork
- › Transparency
- › Accessible management
- › Results

Àltima's purpose

From our daily contact with the experience of death, we seek to help everyone relate to it in an increasingly natural and less fearful way, so that they can eventually accept it for what it truly is: a **part of life**.

ACCOMPANYING FAMILIES

Increasing excellence, humanity and empathy in accompanying families.

THE ENVIRONMENT

Ensuring careful environmental management of all our resources.

PROXIMITY

Fostering close relations with all social stakeholders, including clients, suppliers and the general community.

GOVERNANCE

Ensuring transparent, responsible management at all levels.

PROFESSIONAL TEAM

Encouraging and supporting opportunities for the personal and professional development of all our employees.

Four Corporate Pillars:

People, Innovation, Technology and Sustainability

PEOPLE

We put people at the centre of everything we do.

In our relationship with **clients**, we encourage excellence, humanity and empathy in our accompaniment of families.

With regard to our **employees** and partners, their talent and commitment are fundamental to achieving our results. We encourage their development with continuous training and promote a healthy and just work environment with growth opportunities for all. We look after our employees' well-being through actions such as refurbishing and improving the rest areas and providing generous health insurance.

Key actions by Áltima in this area in 2024:

INNOVATION

We promote creativity and innovation to provide value for our users and partners.

The way to respond to the needs and demands of our users and partners, such as insurance companies, city councils, official bodies, hospitals and care homes, is by constantly seeking out solutions.

Innovation is a key aspect in all areas of our business. From the design and development of our products and services, to the way we relate to families and our associates.

Refugi de l'Ànima

Refugi de l'Ànima (Sanctuary of the Soul) is an **immersive room** designed as a new emotional accompaniment service for families in saying farewell to their loved ones. The multi-sensory experience integrates images, sound and aromas: **evocative projections, gentle sounds and fragrances that create an intimate atmosphere of reflection and introspection.** This space, separate from the viewing room, is equipped with an advanced audiovisual system that allows personalisation of the experience with images of the deceased or their family and friends. The setting is an invitation to relive memories, shared or personal, focusing on emotions, memory and affection as essential parts of the farewell.

Fungus Urn

With the aim of offering completely natural burial options, Àltima provides urns made of **biodegradable fungi**, using local species and recycled hemp fibres. These urns are suitable for burials and are **organically integrated into the soil in only 45 days, thus helping to enrich it and favour biodiversity.** In addition to being ecological, they provide a poetic symbolism: the return to nature and transformation into a new life. It is an innovative idea that connects remembrance of loved ones with care for the planet.

NEW SPACES

At Àltima we are constantly working to improve and develop new facilities to offer a more comprehensive service.

At Àltima, we are continuously expanding and improving our spaces to meet the needs of users and partners. Each new facility is designed sustainably and using the latest technology, ensuring the facilities respect both families and the environment.

Immersive reality in the Figueres crematorium

The Figueres Funeral Home - Crematorium incorporates an immersive reality service with images and music from Figueres and the Costa Brava to provide a warmer and more personal farewell. It applies state-of-the-art audiovisual technology to create a unique environment, adaptable to the wishes of each family.

Kid's 'Petit Planeta' Space

A new space in the Àltima Ronda de Dalt Funeral Home designed for children accompanying families. "Petit Planeta" (Little Planet) is a room where children can paint, read and relax while adults experience their farewell.

New viewing room in Cadaqués

In the Cadaqués cemetery we have recently opened a new viewing room. These actions reinforces our commitment to quality, tradition, warmth and attention to families in delicate moments.

New areas for spreading ashes

Jardí de les Roselles (Poppy Garden) - Sant Just Desvern Municipal Cemetery

A new landscaped area where biodegradable urns can be buried with a porcelain poppy on top, creating a poppy field of remembrance. It also has a space to add information on the deceased, with a capacity for 42 units.

At the Roques Blanques Regional Cemetery, the areas for ecological ashes have been expanded: Camí del Bosc (Forest Walk) and Arbres Familiars (Family Trees).

Jardí del Record (Remembrance Garden) - Roques Blanques Regional Cemetery

The ideas of this area is to bury an urn under a natural stone engraved with the details of the deceased. This makes each memorial unique and personalised, in a serene and natural setting, designed for remembrance and reflection.

SUSTAINABILITY

We consider the environmental and social impact of our actions in all our decisions.

We are a sustainable, responsible company committed to the environment and local products. We implement practices that allow us to reduce our consumption of natural resources and minimise our carbon footprint.

Efficient water and sustainable energy management

This year **we made significant progress in resource management**. The irrigation system at the Roques Blanques Regional Cemetery was extended with programmable controllers to cover new sections, and a customised programme was implemented to optimise watering times and trigger alerts in the event of leaks or malfunctions.

In L'Hospitalet de Llobregat, a pilot system was launched that measures real-time flow and allows the supply to be shut off for safety, immediately detecting leaks. Its success means it will be replicated at other centres in 2025

Sustainable energy management

With regard to energy, we consolidated the performance of solar installations with a production of 1,059,155 kWh in 2024. Of these, 773,565 kWh were for self-consumption and the rest were fed into the electricity grid.

This management system prevented 244 tonnes of CO² emissions, the equivalent of planting about 11,743 trees, according to figures from the Ministry for Ecological Transition.

We have photovoltaic panels at the following funeral homes:

Àltima Vilafranca del Penedès Funeral Home
(Alt Penedès)

Àltima Gavà Funeral Home - Crematorium
(Baix Llobregat)

Àltima Ronda de Dalt Funeral Home (Barcelona)

Àltima Sitges Funeral Home - Crematorium (Garraf)

Àltima Sant Andreu - Nou Barris Funeral Home
(Barcelona)

Àltima Figueres Funeral Home - Crematorium
(Alt Empordà)

Àltima Sant Just Desvern Funeral Home (Baix Llobregat)

Àltima Sant Vicenç de Castellet Funeral Home (Bages)

Àltima Alt Camp Funeral Home - Crematorium (Alt Camp)

Àltima Sant Feliu de Guíxols Funeral Home - Crematorium (Girona)

Àltima Terrassa Funeral Home - Crematorium (Barcelona)

Àltima Gironès Funeral Home - Crematorium (Girona)

Serveis Funeraris Inca Funeral Home (Mallorca)

Electric vehicles

We are promoting electric mobility by adding new vehicles to our fleet and converting two funeral hearses to electricity, thereby improving energy efficiency and reducing emissions in our operations.

TYPE OF VEHICLE	UNITS
Standard	116
Electric	63
Hybrid	2
General total	181

Reduction of atmospheric emissions

An obsolete furnace at the Àltima Figueres Funeral Home - Crematorium was replaced by a next-generation model with an advanced filtration system. **This has cut emissions of carbon monoxide (CO) by 94%, sulphur dioxide (SO₂) by 62% and particles by 98%.** Improvements in TOC, dioxins, furans and HCl are also expected.

Advanced waste management

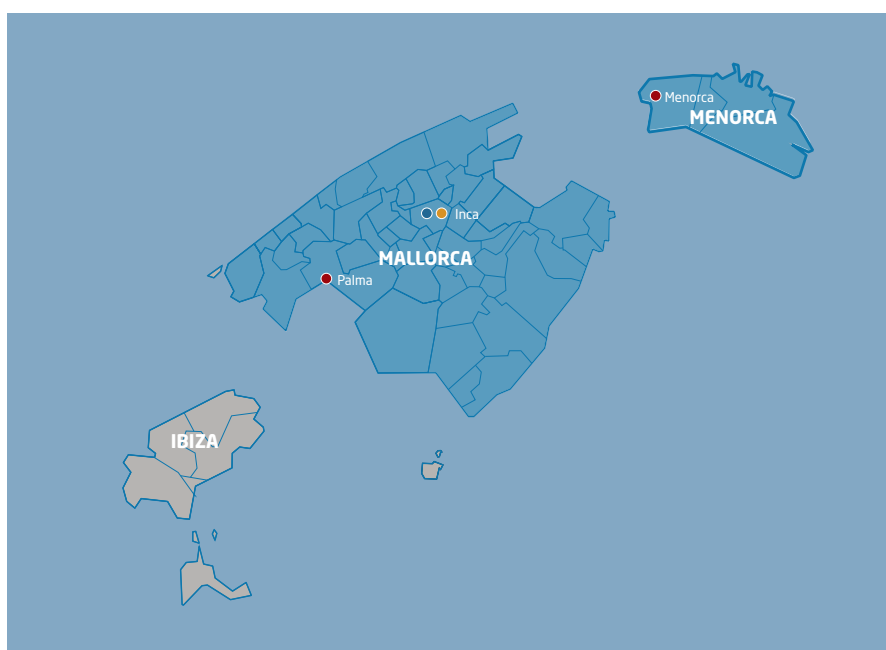

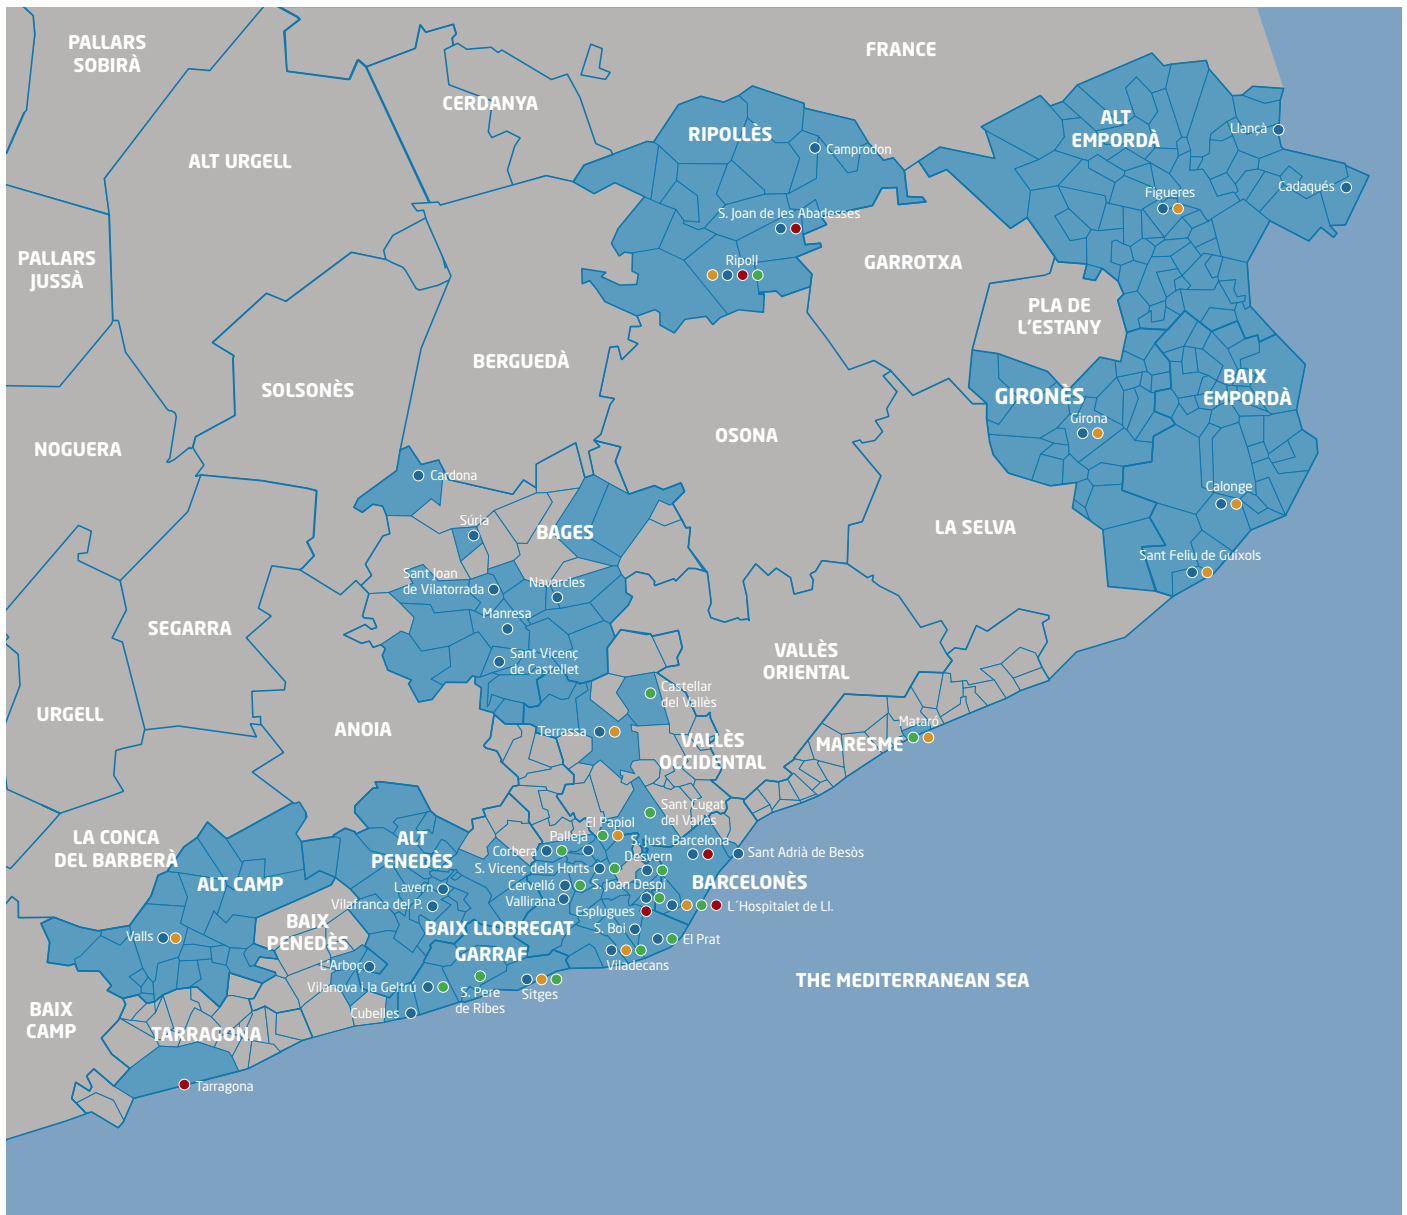

Two innovative ozone technology units were installed to treat and disinfect group III fluids, reinforcing our commitment to proper waste management and reducing our environmental impact.

Social action and environmental education

The educational apiary at the Roques Blanques Regional Cemetery received numerous visits from schools and social organisations, promoting environmental education and inclusion. Among the schools and groups that participated are the Àngels Garriga School, with age-4 pre-school children, the Martorell vocational training institute, the EMAS Club, the Manyet School and the Jose Juan Ortiz School, with 46 primary students.

In addition, we have a strategic agreement with the Parc de Collserola Consortium, focused on the conservation and dissemination of its natural environment, thus strengthening our commitment to sustainability.

ROQUES BLANQUES REGIONAL CEMETERY

Carretera C-1413a km 4,5, El Papiol - Tel. 936 730 535

● Cemetery | ● Crematorium

In service since 1984, it covers an area of 100 hectares and has 20,959 burial spaces. It is a **benchmark in sustainability and a pioneer in the implementation of ecological practices** that respect the environment, earning it several awards. The cemetery is run under a mixed public ownership and private management model.

Traditional burial options: mausoleums, woodland mausoleums, graves, niches, green niches and ossuaries.

Burial options for ashes: wall and ground columbaria, Garden and Fountain of Rest, Family Tree, Forest of Calm, Woodland Path, Garden of Remembrance and perinatal area.

Its facilities include **two crematoria furnaces**.

In addition, the Roques Blanques Regional Cemetery hosts several environmental projects focused on the conservation of biodiversity. It has an **educational apiary** for the protection of bees, a **raft for the preservation of amphibians** and a **butterfly garden** with aromatic plants that favour their reproduction. It also has a monitoring station and nest boxes for the **study of bats** in natural environments. These initiatives reinforce its commitment to native wildlife.
